Simons, who has command of the Virginia troops there, with being too autocratic and intimates that the soldiers are being used in the interest of the coal operators. SPANIARDS TRAPPED IN CUBA
Bravery of the Troops Gives Them The Victory Over Insurgents.

Havana, July 9.—Advices that have reached here from Santiago de Cuba are to the effect that Major Sanchez, commanding a government force, discovered 1,500 insurgents under command of the rebel chief Rabi, strongly posted near Manzanillo. Major Sanchez thereupon sent a message to Major Aznar, inviting him to join forces and attack the rebels. The insurgents captured the messenger and hanged him. They then sent a reply to Major Sanchez's message, signing Major Aznar's name to it, directing that an attack on the insurgents be made at another point.

Major Sanchez fell into the trap, and advanced as directed in the forged message. His force was suddenly attacked by the rebels in a narrow defile. The insurgents charged on the Spanish troops in the most plucky manner, wielding the deadly machete freely. The troops were unable to maneuver, owing to the lack of space. Two sergeants, one at the head of thirty men, and the other at the head of twelve men, gained commanding positions and succeeded in checking the insurgents, shooting all that came within range of their rifles. Their fire was so deadly that the rebels made no further attempt to charge, and the troops were enabled to escape from the defile in which they had been ambushed. The government force then attacked the main position of the rebels and compelled them to retreat. The insurgents lost 280 killed. The government loss was fifty killed and wounded.

Fatal Skirmish for Rebels.

Santiago de Cuba, July 9.—Generals Salcedo and Bazan made a reconnaissance at Yateras yesterday and had two slight encounters with insurgent bands, resulting in the killing of six rebels. The government lost two killed and six wounded. STREET FIGHT IN CHICAGO.

Desperado Killed in a Duel with Police Officers.

Chicago, July 9.—Wabash avenue was the scene last night of a shooting encounter that has been paralleled rarely in the police annals of Chicago. Beginning with a desperate struggle in a saloon the battle developed into a running fight, in which a fugitive robber fired into a pursuing crowd and was finally killed by a bullet from the revolver of Police Officer Isaac Rosenthal. The dead:

COLE, GEORGE E., shot in back and died in a few seconds.

The injured: McGloin, P. J., badly cut about head. Sternberg, H. M. shot in abdomen; will die.

Stone, Sam A., shot in calf of leg.

The preface to the shooting was the attempted robbery of the owner of a saloon at 64 Adams street. The saloon is owned by Peter J. McGloin. He made a desperate resistance and was badly cut about the head. The robber, after the struggle, dashed into the street, with the saloon keeper in pursuit. The chase was kept up for three blocks, when Police Officers Rosenthal and Dailey joined in the pursuit. With drawn revolvers they called on the robber to halt, but he drew his gun and fired several shots, severely wounding two bystanders. Officer Rosenthal then fired twice, killing the robber almost instantly. From marks on his clothing his name was made out to be George E. Cole. The inquest will be held to-day.

IN WEST VIRGINIA.

Danger of a Collision with Striking Miners Still Imminent.

Bluefield, W. Va., July 9.—The situation is very grave in the Elkhorn mining region. Col. White, Governor MacCorkle's private secretary, says the danger is imminent and that trouble may occur at any time. A telegram from Governor MacCorkle to Col. Tierney, says if any more parading with guns is done by the miners the troops will be sent immediately. Threats of burning the tipplers are made and this, with the derailment of cars, has created serious alarm. The heavy guard of United States Marshals together with Governor MacCorkle's telegram, Col. White thinks, has had a beneficial effect. The company here is in readiness to move at once if needed. Col. White left for Elkhorn last night.

Reports of Storm in Indiana.

Tipton, Ind., July 9.—Reports of the storm in this county Sunday night are coming in, and they show that considerable damage was done. He brings a fund of information on the status of the Japanese-Chinese struggle and the interesting details of the peace negotiations in which he took a personal part.

South Quebec, July 9.—At Craigh station, at 2:45 this morning, one section of the Pilgrim train ran into the rear end of the forward section. It is reported that twenty-five were killed and forty wounded, but later reports modify this somewhat.

East Liverpool, O., July 9.—At 3 o'clock yesterday afternoon a trolley car with thirty passengers on board became unmanageable and slid down the Franklin hill on the north side of the city, killing one man and injuring sixteen other people. The dead:

The injured: Anderson, Frank; cut about head and face.

Anderson, Mrs. Frank, of Rochester, Pa.; arm and rib broken.

Anderson, Mrs. Luella; cut about head and face.

Richardson, Mrs. Charles, Wellsville; badly cut about arms and breast.

Spence, Charles, an old man of Salineville; one rib broken.

Surles, C. F.; cut about the face.

The car was manned by John Hamilton, a new motorman, it being his first day on duty. The tracks were slippery after the rain and the car got out of his control. At the foot of the hill it jumped the track on a sharp curve and went over a twenty-foot embankment into a creek.

The momentum was so great one-half the car was almost buried in the sand. Hamilton, the motorman, was instantly killed, his head being crushed to a jelly. The car broke in two as it struck and several passengers fell through the floor and were plunged headlong into the creek. A peculiar feature about the accident was that seven of those injured were visitors in the city who happened to be on the car.

TROLLEY RUNS AWAY.

Nine Passengers Injured on a Buffalo Street Car.

Buffalo, N. Y., July 9.—Nine men were badly injured by the derailing of a trolley car at North Buffalo yesterday.

A gang of about seventy-five Italians and Poles boarded the car to go to Tonawanda, where they are engaged in grading the new electric road between this city and Niagara Falls. Just after the car left the station the motorman noticed something was wrong with the brakes. The car was then on a steep grade and its speed increased until it reached a frightful velocity. The car went bounding over the rails and the passengers grew terribly excited, and it was with difficulty they were restrained from jumping off.

For three-quarters of a mile, the car went rushing along until it struck a curve and jumped the track, tumbling over and over into the ditch and being reduced to kindling wood. Those of the passengers who escaped injury went to the assistance of those beneath the car and soon had them removed. Nine were found to be quite badly injured, but only two, Victor Marcel, a Pole, and Pasquale Suallo, an Italian, were seriously hurt.

JUMPED THE TRACK.

Many Persons Injured in a Trolley Car Accident at Chicago.

Chicago, July 9.—Several passengers in a Paulina street trolley car were hurt yesterday. The motor jumped the track and was completely wrecked. The accident caused a great deal of excitement. The injured are: Julius Szczanska, 50 years old; left arm, shoulder and back injured; will recover.

Robert Stokes, colored; left arm and both legs injured.

Andrew Gesking, bruised about chest and shoulders.

William Bathar, motorman; injured about the face and head by jumping from the car.

Frank J. Paolera, slightly injured about arms and head.

The car, No. 1,062, was in charge of Motorman Bathar and William Myers of 253 Clybourn place, conductor. It carried between twenty and twenty-five passengers, among whom were several women, and, some of them say, was going about eight miles an hour. When in front of 501 South Paulina street the trolley pole suddenly left the overhead wire and before Bathar realized there was any danger the car had bounded off the track.

TWO THOUSAND PEOPLE ARE LEFT HOMELESS.

Sambrow, in Russian Poland, Visited Today By a Destructive Conflagration—Standard Oil Company's Plant at Oakland, Ill., Burns—Fifty Houses Destroyed in Lorneville, Ont.

St. Petersburg, July 9.—Fire destroyed 250 houses in the town of Sambrow, Russian Poland, today. Two thousand people are homeless.

Chicago, Ill., July 9.—A series of explosions, followed by a volcanic burst of light, called the people of Oak Park and Harlem from their homes at 10:45 o'clock last night. Immediately the plant of the Standard Oil Company at Harlem was discovered to be on fire. The fire spread to the office building, which was destroyed, and to the Frank Ellis Lumber Company yards on the east. After a heavy fight by the combined companies the fire in the lumber was brought under control, and attention was given to the burning oil. About fifty barrels of gasoline and kerosene exploded in the early stages of the fire, causing excitement and danger for both firemen and spectators. A pool of oil a foot or two deep gathered in the middle of the property. This burned like a bed of molten lava until 2 o'clock this morning. W. J. Vondaller, of the station, places the loss at about \$4,000. In the safe were the company's accounts, the extent of injury to which was not learned. Mr. Vondaller inclines to the theory of incendiarism, as there was no fire about the premises.

Fifty Houses Burn.

Cornwall, Ont., July 9.—About fifty houses have been destroyed by fire at Lorneville, a suburb of this place, and 800 people rendered homeless. Great distress prevails. One child was burned to death. Boys playing in a shed set fire to it and started the blaze. A high wind was blowing and the flames communicated rapidly with the adjoining houses, which were of wood, and in three hours the whole district was a smoldering mass of ruins. Full details of the calamity have not been received.

Trollinger, a prominent physician of this city, who was detailed a month ago to visit the negro colony at Tlanahuillo, in the state of Durango, Mexico, and investigate the real condition of the negroes who were removed there from Alabama and Georgia last winter, has returned. He says there were 900 negroes in the colony, walled in and closely guarded. Fully 50 per cent are suffering from a disease resembling malaria, from which a large number have died. The doctor says the colony company is developing 52,000 acres of agricultural land and working the negroes. As the negroes are citizens of the United States the attention of the department of state at Washington will be called to the colony and an official investigation requested.

Terrible Consequences Entailed by a Cloudburst.

Winona, Mo., July 9.—Eleven persons are known to be dead as a result of the terrible cloudburst here Saturday evening. AN IMPORTANT RULING.

Archbishop Kain of St. Louis Removes a Ban.

St. Louis, Mo., July 9.—Archbishop Kain has made a decision that removes the ban placed by some priests on Grand Army funerals. Under his ruling members of the Grand Army of the Republic attending funerals may enter the church wearing their uniforms and insignia and may conduct funerals in accordance with their ritual in Catholic cemeteries. The question had lately assumed such proportions that some of the leading officers and members of the Grand Army decided that an understanding between the church and the order should be reached that the veterans might know how to govern themselves. The decision of the archbishop resulted.

San Francisco, Cal., July 9.—When Joshua Hendley, a pioneer manufacturer of mining machinery, died he left a \$500,000 estate to a nephew and niece. His brother, Samuel Hendley, contested the will and there has been a long-drawn-out battle in the probate court here. The matter has now been compromised. Samuel Hendley is to take \$300,000 and will waive all claims to the estate. A number of the legatees live in the eastern states.

ECHOES OF THE SUNDAY STORM

More Damage Reported From Various Points—Panic in An Insane Asylum.

Guthrie, Ok., July 9.—Word has been received here that a terrible storm of the tornado variety has swept over the new asylum for the insane at Norman. It partly wrecked the main building and seriously damaged many of the other structures. The inmates of the institution were terrified when the storm struck the place. They raved and screamed to be let out of the buildings. The heavy tower over the main entrance was lifted high in the air and then dashed with a crash against a stable 200 feet away. A part of the roof was carried away too. Several windows were broken by the hail. The asylum officials did what they could to quiet their insane charges, but with little success. The wildest rumors are afloat that many who were convalescents were frightened into abject lunacy again by the storm.

Reports from Camp Russell are that hail stones five inches in diameter fell there. Crops were ruined, stock was injured, and many windows were smashed.

At Mount Summit a terrific water-spout came down with a rush. It is reported to have wrecked several small buildings and to have swept away many bridges.

Reports from other neighboring places are anxiously awaited.

There was also a severe hail in a wide strip of country, which killed a considerable number of cattle. The Brown drifted ashore and soon pounded to pieces on the beach. Had the life crew been ten minutes later the three men would have perished.

has been very dry and the chinch bugs are doing much damage. The wheat is nearly a complete failure as are also oats. The dry weather and smut is cutting them short. A LA PRAIRIE SURPRISE PARTY.

LA PRAIRIE, July 9.—No one could have been more surprised than was Miss Christina Scott on Saturday, when a party of her lady friends and relatives visited her at the home of her parents, Mr. and Mrs. Adam Scott of La Prairie, to celebrate her twenty-first birthday. All enjoyed themselves to the utmost and a dainty supper of ice cream and cake was served to which all did ample justice. As a token of esteem Miss Scott was presented with a handsome sewing machine and gold ring, which will serve to remind her of the surprise on the day she reached her twenty-first milestone.

"AMERICA" TO BE PLAYED HERE.

Woman's Relief Corps Secure The Services Of Prof. McDaniel.

Prof. McDaniel, of Dubuque, Iowa, has been engaged by the W. R. C. to produce the great story "America" to be given at the opera house in this city in the near future, a part of the proceeds to go to the benefit of the W. R. C. Many saw this play when visiting at the World's Fair. It is one of the grandest spectacular productions ever put on any stage. The production is an allegorical history of the discovery and development of America. There is no dialogue but the plot is unfolded by a series of living pictures, characteristic dances, and sprightly music. It is a composition which must be seen to be appreciated. The poetry of motion develops the story of Columbus landing on American shores, the simple Indian, the triumphal return to Spain, his reception at the court of Castile and Aragon, the landing of the pilgrims and the American of today are pictured in their brightest colors. The varied dances all serve to make a unique entertainment. Don't fail to see it.

DR. KOERNER MUCH SURPRISED

Knew Nothing of The Mark of Distinction Under Discussion For Him.

Christian Koerner of the Germania and brother of Rev. C. J. Koerner of this city, has been made Doctor Juris Utriusque by the National University of Illinois, one of the oldest and foremost universities in the country. Action was taken at the request of his many friends who submitted to the university his articles in the Haus and Bauernfreund. The legal faculty pronounced them faultless and stated that the opinion was the more remarkable as Mr. Koerner had to deal with the laws of all the states in the union.

Upon this report and the motion of the legal faculty, the National University unanimously voted in favor of Dr. Koerner. There upon the title of Doctor Honoris Causa was given him. Dr. Oppen was sent by the faculty of the university to present the diploma and letter of the university. Dr. Koerner was taken by surprise for he nothing of it.

SENT A DRUNK TO JAIL JULY 4.

Beloit Justice Does Not Recognize It as a Legal Holiday.

The last man sentenced from the Line City to visit Sheriff Appleby was Charles Roberts who was sentenced on the Fourth and brought up by Constable Carey. The young man was too much of a believer in strong drinks and was given five days to sober up. The sheriff couldn't see it that way, as no justice has a right to sentence a man on a legal holiday, so as soon as Charles could see he was turned loose. The sheriff would have been liable had he kept Roberts locked up without a legal commitment.

Two Johns Next Thursday.

Do you want to laugh? If so, see "The Two Johns" at Myers Grand on Thursday evening J. C. (Fatty) Stewart and Quinn Phillips appear as the "Johns." These funny fat men have made themselves famous the world over and their laughable personality has made the play equally famous. There is no blood-curdling and mysterious plot in the play of "The Two Johns." Just simply a case of mistaken identity, and the resemblance which two fat men bear to each other, which gets them into all sorts of ridiculous scrapes. The supporting company is a good one, including a number of specialty performers, among whom are Miss Mabel Meredith, the California operatic star, whose wonderful operatic voice has placed her at the head of the profession. The Star Quartette, who are called the "Kings of Harmony," Green and Stanley, the celebrated musical duo, and a galaxy of pretty girls, are all in the cast.

DEPLORE DR. PALMER'S DEATH

Resolution Adopted By The Janesville Business Men's Association.

The following resolutions were adopted by the Janesville Business Men's association on the death of Dr. Palmer.

The death of Dr. Palmer has taken from Janesville its foremost citizen and one of its most prominent business men. As president of the Merchants' & Mechanics' Savings bank and of the Janesville Cotton Manufacturing company, he occupied positions of influence and responsibility, while his connection as shareholder and director in other organizations has identified his name with many of the enterprises which have contributed to the prosperity of our city.

Dr. Palmer's support of an enterprise was never uncertain or half-hearted, and in whatever cause he engaged it was sustained by him with all his intellectual and pecuniary resources.

Therefore in addition to the great consideration in which he was held for his personal worth and for his professional ability, the members of the Business Men's association of Janesville mourn that there has been taken from their number one who was a warm supporter of the purposes of this society; who was ever watchful of the city's interest; who always gave faithful service to all plans which promised to promote its business welfare; and who was ever ready to examine into the merits of new projects and furnish substantial aid to such as gave tokens of success.

It is therefore by the Business Men's of Janesville,

Resolved, That said association express its sense of sorrow and loss in the death of Dr. Henry Palmer.

That these resolutions be spread upon the records, and a copy of the same be transmitted to the family of Dr. Palmer.

WHEELS HURT THE FEED STORES

Local Dealers Say The Bicycle Craze Cuts Their Business.

The latest complaints about the growing popularity of the bicycle come from the dealers in feed who say since the almost universal use of the bike, they had had but little call for their line of goods. A talk with a local dealer brought out the fact that his business had dropped off one half from what it was last season and he lays it all to the bike.

"But" he continued, "my trade is mostly with the fashionable people of the city, and they, more than anyone else, have sold their horses, while with the working class, who team it for a living, and with the liverymen, I have just as large a trade as last year."

THE OPEN AIR OPERA
MADE A \$6 PROFIT

PRODUCTION WAS A FINANCIAL FAILURE.

L. C. Baker Who Drilled The Company and Furnished The Costumes Got \$4 For Four Week's Work and the Ladies of Trinity Church Received \$2 for Their Share.

The open air presentation of "The Great Tycoon" was not a financial success, the net profits being but six dollars, of which L. C. Baker, the director, received four dollars, and the ladies of Trinity church two dollars. The total expenses were \$219. The production is a costly one to produce, the heaviest expense being the freight on the amphitheatre material, and the help required in putting it up. In addition, all outside talent were paid all their expenses, while some of the local talent received a salary. Four special police were hired, day and night, while a great deal of money was put into the costumes, all of which were made in Janesville. After all expenses had been paid Manager A. L. Baker received four dollars for his four weeks' work and the use of his costumes, while Trinity church society received two dollars as their share.

MADE PLANS FOR THE HOSPITAL

A Special Meeting Of The Directors Held Last Evening.

Plans looking toward the opening of Oak Lawn hospital were made at the meeting of the directors of the association held at the George L. and Sarah H. Carrington office last evening. It was stated that the \$1000 bequeathed by the late Ensign Bennett would be available as soon as the estate was settled and the subject of city aid for charity cases was freely discussed but no definite conclusion was reached. The hiring of a matron was also talked over and the chances are that the doors of that most worthy institution will soon be open.

The Old Curiosity Shop.

Can you locate it? You ought to be able to because you live in it. This world is the biggest curiosity shop that we have ever known anything about up to date. Jupiter or Saturn may be able to discount it. Perhaps, and perhaps not. It is pretty full of people who are continually tinkering with themselves—patching them. It serves up so to speak, in a medicinal way. If they are constipated, bilious or dyspeptic they rush to the nearest druggist for a violent purgative. If the are malarious they fly for relief to that ancient but ineffectual reliance—the sulphate of quinine. This is what they shouldn't do. What they should do is to begin and pursue a course of Hostetter's Stomach Bitters, the prime of all-natural and anti-malarial specifics, particularly valuable also for rheumatism, neuralgia, nervousness and debility, and a promoter of sleep and appetite beneficial to all chronic invalids.

Let Us Soap This Is So.

Even common washing soap may have a romance connected with it. A girl in a Cincinnati soap factory put a note within the wrapper of a bar of soap as follows: "I would like to get married. Kindly address Cora Lautermann, Ludlow Grove, Ohio." The faithful bar was bought by C. D. Washburn, a railroad man of Susquehanna, and an item in Friday's Cincinnati papers was headed "Washburn-Lautermann."

The Christian Character.

Every honest prayer breathed, every cross carried, every trial endured, every good work for our fellow men lovingly done, every little act conscientiously performed for Christ's glory, helps to make the Christian character beautiful and to load its broad boughs with "apples of gold" for God's "baskets of silver."

Bronte Museum.

A Bronte museum, to contain memorials of the famous family, is to be established in a suite of rooms in Haworth within a stone's throw of the historic church and parsonage.

"We may not climb the heavenly steep
To bring the Lord Christ down;
In vain we search the lowest deep,
For him no depths can drown.
But warm, sweet, tender, even yet
A present help is he;
And faith has yet its Olivet,
And love its Galilee."

The Only Remedy in the World that Refunds Purchase Price if it Fails to Cure the Tobacco Habit in 4 to 10 Days is

Narcoti-Cure

It Cures while You Continue the Use of Tobacco.

The greatest discovery of the age!

A certain, pleasant, permanent cure.

A lifetime's suffering ended for \$5.

Why smoke and spit your life away? Why suffer from dyspepsia, heartburn and drains on your vital forces?

Stop using tobacco, but stop the right way.

Drive the nicotine from your system by use of this wonderful remedy.

Narcoti cure is warranted to remove all desire for tobacco in every form, including Cigar, Cigarette and Pipe smoking, Chewing and Snuff Taking.

Use all the tobacco you want while under treatment, and in from four to ten days your "hankering" and "craving" will disappear—the weed won't taste good. Then throw away tobacco forever.

Narcoti-Cure is entirely vegetable and free from injurious ingredients. It never fails to give tone and new vigor to the weakest constitution.

Remember Narcoti-Cure doesn't deprive you of tobacco while effecting a cure; doesn't ask you to buy several bottles to be entitled to a guarantee; doesn't require a month's treatment; and finally, doesn't enable you to stop tobacco only to find yourself a slave to the habit of tablet chewing.

With Narcoti-Cure, when you are through with tobacco you are through with the remedy. One bottle cures. Send for book of prominent testimonies like the following:

HUNTINGTON, Mass., Mar. 18, 1895.

The Narcoti Chemical Co., Springfield, Mass.

Gentlemen:—I have used tobacco for over twenty-five years, chewing and smoking every day from 7 a. m. to 9 p. m. stopping only for meals.

On Monday, February 4, I called at your office in Springfield, and bought a bottle of the Cure which I used as directed and on the tenth day the desire for tobacco had left me and has not returned. I did not lose a meal while taking the cure. My appetite has improved and I consider Narcoti-Cure a grand thing.

Very respectfully,

CHAS. I. LINCOLN.

Mr. Frank H. Morton, of Chicopee Falls, Mass., late Inspector of Public Buildings for Massachusetts, says:

I used tobacco for twenty-five years, and was a confirmed smoker. In just eight days' treatment with Narcoti-Cure I was through with tobacco, in fact the desire vanished like a dream.

Very respectfully,

FRANK H. MORTON.

If your druggist is unable to give full particulars about Narcoti-Cure, send to us for Book of Particulars free, or send \$5 for bottle by mail.

The bargain lovers trading center.

With next Wednesday we inaugurate the Mid-summer series of the popular Wednesday Sales, and as these specials have become recognized as Janesville's leading trade sales, a repetition of former successes can only be expected.

The great popularity of these sales can best be explained in the fact that every offering made has something to back it up. If we say we are going to sell a dollar value for fifty cents, it is just what you will find if you come. THIS DAY IN HISTORY

1386—Battle of Sempach; Arnold von Winkelried "made way for liberty" and secured the independence of Switzerland.
1705—Pierre Lemoine, Sieur d'Iberville, founder of Louisiana, died in Cuba; born 1661.
1755—Braddock's defeat.
1777—Henry Hallam, author of the noted history of the middle ages, born; died 1830.
1843—Washington Allston, painter, died at Cambridge, Mass.; born in South Carolina 1779.
1850—Zachary Taylor, twelfth president, died in office; born 1784. Taylor was a soldier president. While a young man he served as captain against the Indians during the 1812 war. He also fought against Black Hawk and the Seminoles. When the government decided to interfere in the dispute about the Texas border, Taylor was sent with an army into the territory claimed by Mexico. He was attacked and not only defended his ground, but carried "the war into Africa" and won some thundering victories on Mexican soil. The volunteer soldiers idolized old "Rough and Ready," and the war left him the most popular leader in the army.
1890—General Clinton B. Fisk, eminent soldier, Methodist and former prohibition candidate for president, died in New York; born 1828.

"PRACTICAL POLITICS."

Frequent complaints are heard of the part played by colleges in politics. The graduate, trained for useful citizenship and broadened by his study of the political institutions of other countries, is apt to bring from the class room a contempt for what he calls "practical politics." He forgets that it is through practical politics that all public business must be transacted and all reforms wrought; and by holding aloof he and his fellows rob the community of an influence that might be strong for good. President Draper, of the University of Illinois, is fighting this tendency and these words from his baccalaureate sermon should be echoed in every college in the land:

"So far as the policy of the state or nation is in issue between political parties, cast your lot with the one which most nearly represents your views and adhere to it until the same principle of action leads you to give your adhesion to another. When associated with a party give it enthusiastic support. Read its literature, engage in its discussions. Attend its conventions, support its candidates and yell over its triumphs. Do not change parties daily. A single issue or single nomination may be a sufficient ground for change of parties, but it seldom is."

THE PUBLIC COMMITTEE OF SAFETY.

Steamboat inspectors have learned to swing the whitewash brush in a way that makes congressional committees jealous.

The big whaleback, Columbus, raised all the way from Milwaukee to Chicago with steam pressure 30 pounds above normal and even the reserve boiler as hot as soft coal and forced draught could make it. Passengers felt the tremor increase until they crowded up in the bow in apprehension. The shaking grew worse, the great boat quivered from end to end as it was driven through the waters abreast of its white rival. At last iron and steel could stand the strain no longer and there was an explosion that filled the engine room with steam and threatened the safety of the craft. Two thousand lives were put in peril that a momentary triumph might be gained.

All these facts were laid before the inspectors, and these guileless men decided the accident to be one "for which no body can give a reason." This leaves the matter in the hands of the public, a tribunal that is likely to place less reliance in steamboat inspection in future.

Can the rise in furniture announced by Wisconsin manufacturers yesterday have been anticipated by Janesville young people? A local clergyman says June marriages were only one-third as numerous as last year. When Cupid loses his grip in sunny June something serious must be the matter.

Judge Walber of Milwaukee wants to sit on the supreme bench. There have been many on the bench with nowhere near the common sense of the Milwaukee police magistrate, and common sense is something worth having in the most august of law courts.

In all probability that Newville mystery is a case of suicide. But it would please Sheriff Appleby greatly to have somebody explain why a man holding a pistol in his left hand should blow his brains out from the right side.

It pleases Senator Vilas to be boomed for president and it doesn't

make the slightest difference in the world to anybody else so let the sport go on.

People around Indian Ford make faces at Newville people and talk about towns where a man has to be dead three months before anybody notices it.

CRISIS IN CANADIAN CABINET.

Three Members Resign as a Result of the Manitoba Affair.

Ottawa, Ont., July 9.—The dominion government has at last made its statement on the Manitoba school question, and a cabinet crisis is the result. The final decision was reached only after six protracted cabinet meetings, the one yesterday lasting from 10 o'clock in the morning to 3 in the afternoon. Mr. Foster, leader of the government, said it was not the government's intention to ask Parliament to pass remedial legislation at the present session of Parliament. But that if it was found to be impossible to come to an agreement by January of next year a session would be called, at which the government would be prepared to "introduce" and press to a conclusion legislation giving relief to the minority in Manitoba.

As a result, Sir Adolph E. Caron, Postmaster General; Joseph Oulmet, Minister of Public Works, and Mr. Angers, Minister of Agriculture, have resigned, and the French members threaten to defeat the government. Mr. Laurier, it is believed, will to-day move for a want of confidence in the government.

THREATEN FIRE BUGS.

New Orleans Citizen's Committee Issue a Public Warning.

New Orleans, La., July 9.—The failure of the grand jury of Jefferson parish to indict the men who took part in the lynching of John Frye, the fire bug, in Gretna, opposite New Orleans, a few days ago, has encouraged the men who were engaged in that lynching. The town is posted with notices signed "Citizen's Committee," announcing that its members will promptly lynch the fire bugs if any more mysterious fires occur in the town. The peculiarity of the notice is that the names of the men who are accused of being fire bugs and whose lynching is threatened are given, some twenty men being enumerated as likely to be hanged, the threatened men being prominent in politics and some of them near relatives of the officials high in the parish.

BOUGHT AN ODD LOOKING STONE

A Curiosity Brought to Town By M. H. Soverhill.

An odd looking stone that has attracted the attention of hundreds of people of late, is now on the lawn at the residence of Mr. and Mrs. M. H. Soverhill, corner of Washington and Ravine streets. Mr. Soverhill recently purchased it while on one of his wool buying trips. A Madison young lady who is interested in geology, has made two trips to Janesville, that she might study it. A paper upon which is written the following, is pasted on the rock.

"This stone, with many others of dissimilar character was found on the farm of Henry Gilbert, town of Unity, Trempealeau county, Wis., and was deposited by glacial drift thousands of years before the year one."

JUNE MARRIAGES WERE FEWER

A Local Clergyman Says Hard Times Have Had An Effect.

The month of June has been a quiet one for the ministers and the marriages have been few. June is usually one of the best months, matrimonially, but one prominent pastor of a Janesville church says that by an actual count his calls in this line were one-third less during the month of June than a year ago.

ENDEAVORERS AT BOSTON.

Sixty Thousand Delegates Expected to Be Present.

Boston, Mass., July 9.—There are already ample evidences of the enormous scope and size of the International Christian Endeavor convention which opens here to-morrow. It is estimated that so far about 10,000 of the 60,000 delegates expected have arrived. Most of these are from the New England states, but there are a few westerners among them. Fifteen of the California delegates came last night and in the afternoon a car load of people from Idaho and North Dakota came.

There is some talk about the removal of the headquarters of the united society from Boston to Chicago, but for some reason the matter is not considered seriously by the officers of the society. President Clark was asked about it and he said that the dispatches from Chicago was the first he had heard of a real attempt being considered. It is regarded here as very doubtful if the removal can be effected. The society is thought to be too firmly established here.

CASHIER CARRIES A GUN.

Demands That Rainy Lake People Retract Stories.

Rainy Lake City, Minn., July 9.—The sequel to the recent bank robbery here came yesterday. After Cashier Butler returned from Duluth with money to replace that stolen from the bank he learned that during his absence many of the depositors had openly charged him with being a party to the robbery. Arming himself with a big revolver he started out after his traducers. He made many of the more prominent retract the statements they had made. Butler swore out warrants for the arrest of several people in the city, charging some of them with slander and some with selling liquor and drugs without a license. Alderman John Lang was among those arrested.

Chicago, July 9.—Judge Woods will sit in the United States Circuit Court to-day to decide whether the two sentences of Eugene V. Debs and the other American Railway union leaders shall be cumulative or concurrent. The judge has had the matter under consideration ever since the petition of Debs' attorneys was filed asking that the sentence in the Santa Fe and the contempt cases be made concurrent, and it is believed that the petition will be granted.

WHAT IS THIS DISEASE CALLED DYSPEPSIA.

Like a thief at night, it steals in upon us unawares. The patients have pains about the chest and sides, and sometimes in the back. They feel dull and sleepy; the mouth has a bad taste, especially in the morning. A sort of sticky slime collects about the teeth. The appetite is poor. There is a feeling like a heavy load on the stomach; sometimes a faint, all gone sensation at the pit of the stomach, which food does not satisfy. Eyes are sunken, the hands and feet become cold and feel clammy. After awhile a cough sets in, at first dry, but after a few months it is attended with greenish colored expectoration. The patient feels tired all the while and sleep does not seem to afford any rest. After a time he becomes nervous, irritable and gloomy, and has evil forebodings. There is a giddiness, a sort of whirling sensation in the head when rising up suddenly. The bowels become constive, the skin is dry and hot at times; the blood becomes thick and stagnant the whites of the eyes become tinged with yellow; the urine is scanty and high colored, depositing a sediment after standing.

There is a frequently a spitting up of the food, sometimes with a sweet taste; this is frequently attended with palpitation of the heart; the vision becomes impaired with spots before the eyes; there is a feeling of great prostration and weakness. All of these symptoms are in turn present. It is thought that nearly one-third of our population has this disease in some of its varied forms. It has been found that medical men have mistaken the nature of this disease. So we have treated it for a Liver Complaint, a Dyspepsia, others for Kidney Disease, etc., etc., but none of the various kinds of treatment have been attended with success.

Now, the Shaker Digestive Cordial causes the food eaten to be digested. This will cause an appetite for more food, and this being digested will result in an increase of strength, an increase of flesh and an increase of nerve power. The tired, weary feeling will give away to vigor and courage. The pale, thin and emaciated will recover their color and plumpness, because red blood and fatness the result of properly digested food.

A ten cent trial bottle will produce a result. Its good effect will be realized at once. You will not have to take a zen bottle to find out it is doing you any good. Try it, and then give praise to the Shakers of Mount Lebanon, New York, for the relief that you obtain.

A TRAIN RUN DOWN BY A FARM TEAM

RESULT—A DEAD HORSE AND

Rockford Passenger Got In the Hay-seeds' Way—Wet Milwaukee Street Sewer—Late Hours For Militia—Quarter Master Sergeant Baldwin—Surprise Miss Scott.

When the Rockford passenger left this city last evening in charge of Engineer John Lewis, of Madison, and Fireman Charles Slightam of this city, little did they think that a farmer would try to "buck" them off the track but that was what happened. As they were speeding along near Rockford, Engineer Lewis felt a jar against the train, and looking out they saw pieces of a buggy flying in all directions, while a horse was seen to leap high in the air. The train was at once stopped, when it was found that a farmer had driven against the train, at a road crossing, killing the horse, and breaking the driver's arm. When the train pulled into the Janesville yards this morning, the back platform of the rear coach was missing, while the sides of the coaches were more or less scratched.

TAXES WILL REMAIN ABOUT THE SAME

INCREASE THIS YEAR WILL BE SMALL.

If the Present Indebtedness Was Wiped Out the Figures Would Not Vary Materially From Those of Last Year—Treasurer Fathers Makes Conservative Estimates.

The board of review completed their work on the city assessment last evening and turned the assessment books over to the city clerk. Very few errors were found, and no material changes were made. The sum total of the assessment foots up \$4,649,915, against \$1,632,923 for 1894, being an increase of only \$16,992. The assessors have divided the property into three classes, real estate, farming lands and personal property, which is given by wards as follows:

Wards.	Real estate.	Farm lands.	Personal.	Total.
1st.	\$48,800	\$195,225	\$405,710 00	\$1,249,735 00
2nd.	500,455	36,225	216,104 77	792,784 77
3rd.	801,211	102,775	271,928 00	1,175,914 00
4th.	717,010	31,075	218,968 00	967,053 00
5th.	360,740	46,995	78,659 01	4,634 00

To. 3,036,355 412,335 1,201,375 77 4,649,915 77

Upon this assessment the council will levy for the ensuing year. This ought not to frighten taxpayers, notwithstanding the fact that so much has been said about the increasing expenses in the past few years. If the indebtedness was wiped out against all the funds, the per cent tax this year would not be materially changed from that of last year.

Treasurer Fathers' Estimates.

City Treasurer Fathers has made a careful survey of the several funds and the amounts necessary for the coming year. His figures are very conservative, and probably will not be materially changed by the council when the tax is levied, which will undoubtedly be at the next meeting. In making up his table he gives the school board \$25,000 instead of \$21,000, the amount already agreed on by the council. His estimates are as follows compared with the levy of last year:

	1895.	1894.
School fund.....	\$25,000	\$18,000
General fund.....	10,710	10,000
Fire and water fund.....	9,900	7,000
Library fund.....	3,000	3,000
Gas fund.....	13,300	7,500
Highway and bridge fund.....	2,200	1,000
Bonded debt fund.....	19,775	15,500
Judgment fund.....	1,200	5,400
First ward fund.....	2,500	2,500
Second ward fund.....	1,000	1,000
Third ward fund.....	3,000	3,000
Fourth ward fund.....	2,500	2,500
Fifth ward fund.....	1,800	1,800
Total.....	\$85,775	\$76,800

The increase \$8,975.00.

This shows a net increase on last year of \$8,975. The total increase over last year is, according to these tables, \$16,000.00, and the total decrease \$7,025, leaving a net increase of only \$8,975. The funds increased are: schools, \$7,000; gas light, \$5,800; fire and water, \$2,900; highway and bridge, \$1,200, making the total of \$16,000. The funds decreased are: bonded debt, \$2,825 and judgment \$7,025.50.

The heaviest increase is in the gas fund, which has nearly doubled, owing to the introduction of electric lights in place of gas and oil, and the present indebtedness of the fund, but it is estimated that the electric lights will not cost over ten or eleven thousand dollars a year. The next largest increase is in the school fund, \$7,000, and after that comes the fire and water fund with an enlargement of \$2,000, made necessary on account of extension of water mains and improvements in the fire department. The chief engineer estimates that it will require \$12,793 for the fire and water fund to June 30, 1896, \$5,500 of this amount being for water rental, and the balance, \$7,293 for running expenses.

LAYING TWO MILES OF GAS MAINS

A Crew of Twenty Men Are At Work On Extensions.

During the past few weeks the New Gas Light Company have been laying pipes in different parts of the city giving work to twenty different men.

An extension was laid on the Center avenue line which makes it two hundred and fifty feet longer, but the greatest improvement is the laying of mains into Forest Park, Riverview Park, Giant Etts and East Riverview which work has already begun.

The pipe reaching Riverview now ends at the corner of Clark and South Bluff streets and from this pipe the route to be taken will be east to Wheeler, south on Wheeler to Gore and then to Dixon streets. Forest Park will be entered by two separate routes, one from Main street east on Oakland avenue, while the other entrance will be from East street, which at present is being torn up, to replace a small one inch pipe with a four inch main.

The route will then be east on South Third street to Jackson, south on Jackson to Oakland avenue, east on Oakland avenue to Jefferson Avenue, then to Valentine street and the Boulevards, out onto Ruger Avenue.

The laying of main into this part of the city is something the people have been asking for many years.

FIFTEEN DAYS' IS RYAN'S TERM.

Beloit Man Convicted of Stealing 75 Cents Worth of Potatoes.

Fifteen days at hard labor in the county jail, was the sentence pronounced upon Patrick, alias "Bolivar" Ryan of Beloit. Ryan was charged with stealing a quantity of potatoes and honey, and it being his second offense, the jury brought in a verdict of guilty and the above sentence was pronounced by Judge Phelps. District Attorney Jackson appeared for the state, and Fred J. Burpee for the defendant.

A deft thief picked Charles Horn's scarf pin from his necktie the other day and the ex-street commissioner mourned the pin as lost. It was presented to him by William Heise, who brought the pin from the old country, so Mr. Horn naturally thought a great deal of it. Later on F. A. Vankirk came in from Center with the pin in his tie, he having bought it of a couple of strangers. Mr. Horn recognized the pin and when he explained the situation to the Center man, the jewel was returned to him, and Mr. Horn now wears it with a minnow hook fastened to the setting with a piece of thread. The pin had been stolen once before and was recovered by Chief Acheson and Officer Houghton.

"Dr." L. P. Bigelow, the medical gentleman who claims to carry a broken neck about with him, is back in jail, as his word did not seem strong enough to keep him out of mischief. Judge Phelps discharged him under a suspended sentence of sixty days, on condition that he leave town. The doctor did not go, however, and last night Chief Acheson put him in jail again. He will now have to serve his sixty days.

A KNIFE THROUGH A BOY'S HAND

Little George Hodge Meets With a Painful Accident While At Play.

After the sharp blade of a knife had been run clear through the palm of his left hand, cutting an artery, Little George Hodge was taken to the office of Dr. Chittenden. Blood dripped from the wound copiously but the doctors soon had it dressed and made the boy as comfortable as possible. The accident happened while the lad was playing with a number of his companions in the First ward. He was running after another boy with the open knife in his hand when he fell, forcing the blade through the palm. The only thing now feared is lockjaw or blood poisoning, neither of which are thought to be very likely to result.

SEASONABLE GOODS.

Gorgeous Taffeta Dust Cloaks—Buttons For Ornament and Use.

Crepon is the goods of the season as manufacturers have produced that weave. Black crepons are particularly popular because of the wonderful effects in light and shadow shown by the varied crimping and the beautiful luster taken by the prominent parts of the goods.

Frosted crepons are also among the novelties in fabric—give, the Parisians term them. But the cabochon crepon is the very latest and promises to be much in evidence.

Changeable taffeta forms this summer's dust cloaks, and these garments no longer confine themselves to the gray or mode tones in which formerly they were only to be found, but include all the gay tints now

fashionable. They are liberally trimmed also, sometimes so delicately as to seem to require quite as much protection as the gown they nominally shield.

Plisse goods are a la mode in thin wool, silk gauze and tulle. They are employed for bodices, the front of blouses and even for whole costumes.

Corsages differing from the skirt in color and material are worn more than ever. Pink is much liked for them just now, with mauve as second favorite.

Sleeves continue to be enormous, but in other respects afford much variety in cut and trimming. The elbow sleeve is seen on many day gowns, muslins as well as silks. All sleeves are gradually dropping below the shoulder, which is a symptom significant of much inconvenient hampering of the arm.

Buttons are forcing their way everywhere, regardless of whether they button anything or not, but they are very fine in quality, antiques or jeweled specimens of exquisite workmanship.

A sketch is given of a dress toilet for summer wear of jacinthe glaze taffeta striped with blue and white. The bodice is of jacinthe glaze taffeta gathered under a yoke of white guipure. A corselet arrangement of guipure holds in the fullness at the waist. The balloon elbow sleeves are of striped taffeta trimmed with blue choux. Straps of blue grosgrain silk cross the top of the shoulders, terminating in choux. The blue collar fastens with two coques behind and passes through a paste buckle in front. The hat accompanying this gown is of beige straw and is trimmed with blue ribbon and mauve roses. JUDIC CHOLLET.

FASHION NOTES.

Flower and Lace Trimmings—Blouse of Madras Silk Handkerchiefs.

One of the latest ideas in the shape of a blouse is intended for the benefit of women addicted to rowing, tennis and other athletic sports. It is a modification of the old jersey style and consists of a bodice of seamless stockinet, which is untrimmed and fastens with small pearl buttons under the left arm. The ample sleeves are also of stockinet, but are of a different color from the bodice. A draped satin collar and waistband finish the garment.

Flowers and lace are the favorite trimming for summer gowns. Ecru or yellow lace on white linen or batiste is extremely fashionable, while flowers outline the yoke or bertha of dress toilets, form boas and collar, are placed in clusters at intervals around the foot of the skirt or are dotted in little tufts all over the balloon elbow sleeves.

A new variety of blouse has appeared in Paris, made of three immense madras silk handkerchiefs in their usual rich oriental

RECEPTION GOWN.

coloring. A handkerchief is employed for each sleeve, the third handkerchief forming the body of the garment.

The fashionable riding habit is of black or very dark blue cloth, the tight bodice having a short basque and a high, close collar. The man's scarf worn with it is of foulard or crepon, with a decidedly "horsy" scarfpin as adornment. The usual high hat is of course the proper head covering, and the hair is arranged rather low on the head. Patent leather boots and white leather gloves heavily stitched with white complete the costume. For the country a more informal toilet may be worn—a short skirt, open, half fitting jacket over a light vest, a simple tie and a black or dark brown hat.

The reception gown shown in the sketch is of black and white striped silk. The bodice is plain and forms a demitrain. The back of the bodice is held by plaits at the waist, the front being crossed, opening over a plastron of old guipure. The balloon sleeves terminate at the elbow. A sort of collar formed of puffs of black mousseline de sole crosses the back of the shoulders, and two long, plaited stole ends fall in front. JUDIC CHOLLET.

She wept upon his shoulder, but as he had on his linen duster, preparatory to going away for a year, the damage amount to but little.

"And shall I find you unchanged when I return, dearest?" he asked.

If people would pay more attention to properly regulating the action of their bowels, they would have less frequent occasion to call for their doctor's services to subdue attacks of dangerous diseases.

That, of all known agents to accomplish this purpose, Dr. Pierce's Pleasant Peppets are unequalled, is proven by the fact that once used, they are always in favor. Their secondary effect is to keep the bowels open and regular, not to further constipate, as is the case with other pills. SUNDAY'S SERMON BY DR. TALMAGE

TAKES BUSINESS TROUBLES
FOR HIS SUBJECT.

Wonderful Changes Have Come Over the
Various Processes of Acquiring World-
ly Wealth—We Need More Happy
Christian Homes.

NEW YORK, JULY 7.—In his sermon for to-day, Dr. Talmage, who is still absent on his western lecturing tour, chose a subject of universal interest, viz: "Business Troubles," the text selected being Ezekiel 27: 24: "These were they merchants

in all sorts of things."

We are at the opening door of returning national prosperity. The coming crops, the re-establishment of public confidence, and, above all, the blessing of God, will turn in upon all sections of America the widest, greatest prosperity, this country has even seen. But that door of successes is not yet fully open, and thousands of business men are yet suffering from the distressing times through which we have been passing.

Some of the best men in the land have faltered; men whose hearts are enlisted in every good work, and whose hands have blessed every great charity. The Church of God can afford to extend to them her sympathies, and plead before heaven with all-availing prayer. The schools such men have established, the churches they have built, the asylums and benevolent institutions they have fostered, will be their eulogy long after their banking institutions are forgotten. Such men can never fail. They have their treasures in banks that never break, and will be millionaires forever. But I thought it would be appropriate, to-day, and useful, for me to talk about the trials and temptations of our business men, and try to offer some curative prescriptions.

In the first place, I have to remark that a great many of our business men feel ruinous trials and temptations coming to them from small and limited capital in business. It is everywhere understood that it takes now three or four times as much to do business well as once it did. Once, a few hundred dollars were turned into goods—the merchant would be his own storekeeper, his own salesman, his own bookkeeper; he would manage all the affairs himself, and everything would be net profit. Wonderful changes have come; costly apparatus, extensive advertising, exorbitant store rents, heavy taxation, expensive agencies are only parts of the demand made upon our commercial men; and when they have found themselves in such circumstances with small capital, they have sometimes been tempted to run against the rocks of moral and financial destruction. This temptation of limited capital has ruined men in two ways. Sometimes they have shrunk down under the temptation. They have yielded the battle before the first shot was fired. At the first hard dun they surrendered. Their knees knocked together at the fall of the auctioneer's hammer. They blanched at the financial peril. They did not understand that there is such a thing as heroism in merchandise, and that there are Waterloos of the counter, and that a man can fight no braver battle with the sword than he can with the yardstick. Their souls melted in them because sugars were up when they wanted to buy, and down when they wanted to sell, and unsaleable goods were on the shelf, and bad debts in their ledger. The gloom of their countenances overshadowed even their dry goods and groceries. Despondency, coming from limited capital, blasted them. Others have felt it in a different way. They have said: "Here I have been struggling along. I have been trying to be honest all these years. I find it is of no use. Now it is make or break." The small craft that could have stood the stream, is put out beyond the light-house, on the great sea of speculation. He borrows a few thousand dollars from friends, who dare not refuse him, and he goes bartering on a large scale. He reasons in this way: "Perhaps, I may succeed, and if I don't I will be no worse off than I am now, for a hundred thousand dollars taken from nothing, nothing remains." Stocks are the dice with which he gambles. He bought for a few dollars vast tracts of western land. Some man at the East, living on a fat home-estate, meets this gambler of fortune, and is persuaded to trade off his estate, for lots in a western city with large avenues, and costly palaces, and lake steamers smoking at the wharves, and rail-trains coming down with lightning speed from every direction. There it is all on paper! The city has never been built, nor the railroads constructed, but everything points that way, and the thing will be done as sure as you live. Well, the man goes on, stopping at no fraud of outrage. In his splendid equipage he dashes past, while the honest laborer looks up, and wipes the sweat from his brow, and says, "I wonder where that man got all his money." After awhile the bubble bursts. Creditors rush in. The law clutches, but finds nothing in its grasp. The men who were swindled say: "I don't know how I could have ever been deceived by that man," and the pictorial, in handsome wood-cuts, set forth the hero who in ten years had genius enough to fail for \$150,000!

And that is the process by which many have been tempted through limitation of capital, to rush into labyrinthine ways which they could not be extricated. I would not want to block up any of the avenues for honest accumulation that open before young men. On the contrary, I would like to cheer them on, and rejoice when they reach the goal; but when there are such multitudes of men going to ruin for this life and the life that is to come, through wrong notions of what are lawful spheres of enterprise, it is the duty of the Church of God, and the ministers of religion, and the friends of all young men, to utter a plain, emphatic, unmistakable protest. These are the influences that down men in destruction and perdition.

Again: a great many of our business men are tempted to over-anxiety and care. You know that nearly all commercial businesses are overdone in this day. Smitten with the love of quick

gain, our cities are crowded with men resolved to be rich at all hazards. They do not care how money comes, if it only comes. Our best merchants are thrown into competition with men of more means and less conscience, and if an opportunity of accumulation be neglected one hour, some one else picks it up. From January to December the struggle goes on. Night gives no quiet to limbs tossing in restlessness, nor to a brain that will not stop thinking. The dreams are harrowed by imaginary loss, and flushed with imaginary gains. Even the Sabbath cannot dam back the tide of anxiety; for this wave of worldliness dashes clear over the churches, and leaves its foam on Bibles and prayer-books. Men who are living on salaries, or by the cultivation of the soil, cannot understand the wear and tear of the body and mind to which our merchants are subjected, when they do not know but that their livelihood and their business honor are dependent upon the uncertainties of the next hour. This excitement of the brain, this corroding care of the heart, this strain of effort that exhausts the spirit, sends a great many of our best men, in middle life, into the grave. Their life dashed out against money safes. They go with their store on their backs. They trudge like camels, sweating, from Aleppo to Damascus. They make their life a crucifixion. Standing behind desks and counters, banished from the fresh air, weighed down by carking cares, they are so many suicides. Oh! I wish I could, to-day, rub out some of these lines of care; that I could lift some of the burdens from the heart; that I could give relaxation to some of these worn muscles. It is time for you to begin to take it a little easier. Do your best, and then trust God for the rest. No not fret. God manages all the affairs of your life, and he manages them for the best. Consider the lilies—they always have robes. Behold the fowls of the air—they always have nests. Take a long breath. Be- think, betimes, that God did not make you for a pack-horse. Dig yourselves out from among the hogheads and the shelves, and in the light of the holy Sabbath day resolve that you will give to the winds your fears, and your fretfulness, and your distresses. You brought nothing into the world, and it is very certain you can carry nothing out. Having food and raiment, be therewith content. The merchant came home from the store. There had been a great disaster there. He opened the front door, and said, in the midst of his family circle: "I am ruined. Everything is gone. I am all ruined." His wife said: "I am left," and the little child threw up its hands and said: "Papa, I am here." The aged grandfather, seated in the room, said: "Then you have all the promises of God beside, John." And he burst into tears, and said: "God forgive me, that I have been so ungrateful. I find I have a great many things left. God forgive me."

Again, I remark, that many of our business men are tempted to neglect their home duties. How often it is that the store and the home seem to clash, but there ought not to be any collision. It is often the case that the father is the mere treasurer of the family, a sort of agent to see that they have dry goods and groceries. The work of a family government he does not touch. Once or twice a year he calls the children up on a Sabbath afternoon, when he has a half hour he does not exactly know what to do with, and in that half hour he disciplines the children, and chides them and corrects their faults, and gives them a great deal of good advice, and then wonders all the rest of the year that his children do not do better, when they have the wonderful advantage of that semi-annual chastigation.

The family table, which ought to be the place for pleasant discussion and cheerfulness, often becomes the place of perilous expedition. If there be any blessing asked at all, it is cut off at both ends and with the hand on the carving knife. He counts on his fingers, making estimates in the interstices of the repast. The work done, the hat goes to the head and he starts down the street, and before the family have arisen from the table he has bound up another bundle of goods and says to the customer: "Anything more I can for you today, sir?" A man has more responsibilities than those which are charged by putting competent instructors over his children and giving them a drawing master and a music teacher. The physical culture of the child will not be attended to unless the father looks to it. He must sometimes lose his dignity. He must unlimber his joints. He must sometimes lead them out to their sports and games. The parent who cannot forget the severe duties of life sometimes to fly the kite, and trundle the hoop, and chase the ball, and jump the rope with his children ought never to have been tempted out of a crusty and unredeemable solitariness.

If you want to keep your children away from places of sin you can only do it by making your home attractive. You may preach sermons, and advocate reforms, and denounce wickedness, and yet your children will be captivated by the glittering saloon of sin unless you can make your home a brighter place than any other place on earth to them. Oh! gather all charms into your house. If you can afford it bring books, and pictures, and cheerful entertainments to the household. But, above all, teach those children, not by half an hour twice a year on the Sabbath day, but day after day, and every day teach them that religion is a great gladness; that it throws chains of gold about the neck; that it takes no spring from the foot, no bitterness from the heart, no sparkle from the eye, no ring from the laughter, but that "her ways are ways of pleasantness, and all her paths are peace." I sympathize with the work being done in many of our cities by which beautiful rooms are set apart by our Young Men's Christian associations, and I pray God to prosper them in all things. But I tell you there is something back of that and before that: We need more happy, consecrated, cheerful Christian homes everywhere.

Again I remark that a great many of our business men are tempted to put the attainment of money above the value of the soul. It is a grand thing to have plenty of money. The more you get of it the better, if it come honestly and go usefully. For the lack of it sickness finds without medicine and hunger finds its coffin in the empty brand tray, and nakedness shivers for lack of clothes and fire. When I hear a man in canting trade against money—a Christian man—as though it had no possible use on earth and he had no interest in it at all, I come almost to

think that the heaven that would be appropriate for him would be an everlasting poorhouse. While, my friends, we do admit there is such a thing as the lawful use of money—a profitable use of money—let us recognize also the fact that money cannot satisfy a man's soul, that it cannot glitter in the dark valley, that it cannot pay our fares across the Jordan of death, that it cannot unlock the gate of heaven. There are men in all occupations who seem to act as though they thought that a pack of bonds and mortgages could be traded off for a title to heaven, and as though gold would be a lawful tender in that place where it is so common that they make pavements out of it. Salvation by Christ is the only salvation. Treasures in heaven are the only incorruptible treasures.

Have you ever cliphed out in the rule of loss and gain the sum: "What shall it profit a man if he gain the whole world and lose his soul?" However fine your apparel, the winds of death will flutter it like rags. Homespun and a threadbare coat have sometimes been the shadow of coming robes made white in the blood of the lamb. The pearl of great price is worth more than any gem you can bring from the ocean, than Australian or Brazilian mines strung in one carcanet. Seek after God; find his righteousness and all shall be well; all shall be well hereafter.

Some of you remember the shipwreck of the "Central America." That noble steamer had, I think, about 500 passengers aboard. Suddenly the storm came and the surges trampled the decks and swung into the hatches and there went up a hundred-voiced death shriek. The foam on the jaw of the wave. The pitching of the steamer as though it were leaping a mountain. The dismal flare of the signal rockets. The long cough of the steam pipes. The hiss of extinguished furnaces. The walking of God on the waves! The steamer went not down without a struggle. As the passengers stationed themselves in rows to bale out the vessel hark to the thump of the buckets, as men unused to toil, with blistered hands and strained muscles, tug for their lives. There is a sail seen against the sky. The flash of the distress gun is noticed, its voice heard not for it is choked in the louder booming of the sea. A few passengers escaped, but the steamer gave on great lurch and was gone! So there are some men who sail on prosperously in life. All's well; all's well. But at last, some financial disaster comes; a euroclydon. Down they go! the bottom of the commercial sea is strewn with shattered hulks. But because your property goes do not let your soul go. Though all else perish save that, for I have to tell you of a more stupendous shipwreck than that which I just mentioned. God launched this world six thousand years ago. It has been going on under freight of mountains and immortals, but one day it will stagger at the cry of fire. The timbers of rock will burn, the mountains flame like masts, and the clouds like sails in the judgment hurricane. Then God shall take the passengers off the deck, and from the berths those who have long been asleep in Jesus and he will set them far beyond the reach of storm and peril. But how many shall go down will never be known until it shall be announced one day in heaven; the shipwreck of the world! So many millions saved! Oh! my dear hearers, whatever you lose, though your houses go, though your lands go, though all your earthly possessions perish, may God Almighty, through the blood of the everlasting covenant, save all your souls.

Individual Communion Cups.
The Congregationalist publishes the following opinion of a physician as to the use of the individual cup at the communion service: Not one of the authors of this movement, so far as I have been able to ascertain, has made any painstaking research to justify the unwarranted conclusions arrived at; on the other hand, years ago, at considerable trouble and expense, I sought information from the most distinguished medical men in the world on this subject. From that time until this no medical man has ever been able, to my knowledge, to produce one solitary case where participation in the sacred ceremony of holy communion has been the cause of disease.

I think, therefore, it is safe to assume that, with the many interesting and valuable investigations still undetermined, medical men had better seek some other source as the cause of infection from disease.

Attractive Religion.
Is your religion winsome? Does it charm and attract? Does it show itself in a pleasant face, a cheerful smile, gentle tones, courteous manners? Is it kindly and thoughtful for the comfort of others, willing to serve, slow to push personal claims, quick to sympathize and help? Or is it sour and hard, grim and frowning, dominated by petty gossip and jealousies, self-asserting and domineering—driving away more than it draws? Look into this matter. Carefully consider this question. See whether or not you are properly representing Christ.
